WHO SHOULD ATTEND?

All Occupational Health Team Members
involved in the management of
workers' well-being in the
workplace. This would include:

Occupational Health Nursing Practitioners
Occupational Medical Practitioners
Safety Practitioners
Managers and Supervisors

THE OBJECTIVE OF THE WORKSHOP

SASOHN is committed to the continued
professional development of Occupational
Health and Occupational Health
Nursing Practitioners in South Africa.

ICOH has stated that in order to develop
Occupational Health globally, OH practitioners
need to address the basics of their discipline.
SASOHN has embraced this concept and
presents the 3rd Academic Workshop in line
with ICOH and SASOHN's professional
objectives.

The workshop aims to meet these objectives
through the presentation of both theoretical
and practical knowledge, by subject experts,
that will assist the practitioner to better
manage the health of employees exposed
to ergonomic stressors.

All queries to be directed to:
