AUDIOMETRIST COURSE

Noise-induced hearing loss is one of the most common, yet most preventable occupational diseases. Our Audiometrist Course empowers you to conduct occupational screening hearing tests to monitor and protect employees at risk of developing noise-induced hearing loss, and to keep companies compliant with South African legislation.

Course Outline

- SAQA Unit Standard 252126: Prepare for and conduct occupational audiometric screenings.
- Covers key principles of ear anatomy, sound & noise, hearing conservation, and audiometric testing.
- Learn to interpret, record, evaluate, and report screening results.

Entry Requirements

- Matric Certificate with Mathematical Literacy and Computer Literacy
- Active email address
- Access to a computer and internet for downloading theoretical material

Training Available: in Queenswood, Pretoria (Gauteng)

- **Structure:** ±10 hours self-study, followed by a 3-day practical workshop in Pretoria or Cape Town (lunch included).
- **Assessment:** Completion of a Portfolio of Evidence within 4 weeks, covering 5 audiometric screenings, with 2 weeks allowed for final resubmission after feedback.
