EVALUATION[CPD Accreditation: 5 Points]

SESSION 3 EMBRACING AND REWARDING THE PACK

WORKSHOPS

24 November 2021, 13:00 - 16:00

Workshop 1 - Dr Ruwayda Petrus

[CPD Points: 3]

Working from home and the impact on our mental health

There are many risk factors for mental health that may be present in the working environment. The coronavirus (COVID-19) pandemic has resulted in changes to the working arrangements of millions of employees who are now based at home and may continue to work at home.

Decisions on how to promote employees' health whilst working at home and recommendations for employers and employees to optimise workers' health and productivity.

Workshop 2 - Mr Sean Chester

[CPD Points: 3]

Risk assessment in the era of COVID-19

The Occupational Health and Safety Act (OHSA), read with its regulations and incorporated standards, requires the employer to provide and maintain as far as is reasonably practicable a working environment that is safe and without risks. On that develop a plan outlining the protective measures in place that should reflect the public health regulations and guidelines needed to manage the risk. The COVID-19 pandemic compels us to relook at our focus on implementing the risk assessments in our workplace.

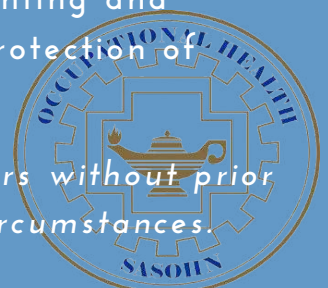

Workshop 3 (Hybrid) - Mr T Ngubane

[CPD Points: 3]

POPIA compliance- Implications for OH service

Compliance to the Protection of Personal Information Act (POPIA), also known as the POPI Act, will be mandatory for most organisations in South Africa. The workshop will give an overview of understanding POPIA and the importance of compliance while implementing and maintaining the lawful processing and protection of information.

We reserve the right to change speakers without prior notice in the event of unforeseen circumstances.
